SUMMARY

Highly motivated and detail-oriented Data Analyst Fresher seeking an entry-level position to leverage my strong quantitative and analytical skills. Proficient in data collection, cleaning, and visualization, with a solid understanding of statistical analysis and data modeling. Skilled in using various data analysis tools and programming languages such as Python, SQL, and Excel. Eager to contribute to a dynamic team and support data-driven decision-making processes to drive business growth and efficiency.

EXPERIENCE

Fresher

EDUCATION

MAULANA MAZHARUL HAQUE ARABIC & PERSIAN UNIVERSITY, PATNA
July 2019 – Dec 2022
Bachelor of Computer Application
GPA – 2.0

Croma Campus Training & Development (P) Ltd.
Present - May 2023
Master in Data Science (Certification Course)

TECHNICAL SKILLS

- Programming Languages: Python, SQL
- Data Analysis Tool: Excel, Power Bi
- Databases: MySQL
- Other Skills: Data Cleaning, Statistical Analysis, Data Visualization, Data Manipulation

SOFT SKILLS

- Strong analytical and problem-solving abilities
- Excellent communication and presentation skills
- Ability to work independently and in a team environment
- Attention to detail and strong organizational skills

PROJECT

- 1. Online Sales Analyze using by Python**
 - Developed a comprehensive analysis of online sales data to identify sales trends and patterns.
 - Extracted large datasets from online sales databases and cleaned the data for analysis.
 - Performed statistical analysis using Python libraries such as pandas, NumPy and matplotlib.
 - Created interactive dashboards using Seaborn to present insights to stakeholders.
- 2. World Population Report using by Power Bi**
 - Conducted an extensive analysis of global population data to provide insights into demographic trends and growth forecasts.
 - Gathered population data from various reliable sources such as the United Nations, World Bank, and government databases.
 - Cleaned and transformed the data to ensure accuracy and consistency using Power Query in Power BI.
 - Designed and developed interactive dashboards in Power BI to visualize population trends, demographic breakdowns, and growth forecasts.
 - Utilized DAX (Data Analysis Expressions) for advanced data modelling and calculations.
